01 PROFILE

I'm an ***experienced software engineer*** and a ***full-stack developer***.

I usually talk about tech stacks like **node.js, nextJs, reactJs, PHP, Laravel, and Codeigniter.**

I have worked with various front-end frameworks and back-end frameworks, designed **REST APIs**, and worked with many types of databases **MySQL, and MongoDB.**

I am a passionate and conscious creator of valuable opportunities in IT who believes in taking up responsibility and rendering them on time.
